

VMC "PCP Chronic Care Enhancement Program" Pilot

The PCP Chronic Care Enhancement Pilot will begin on December 1, 2008 and is being offered to VMC PCP's who have VMC eligible chronically ill members.

The goal is to identify VMC members with high risk for medical compromise and /or high cost and provide supplemental resources in support of their care. VMC will be providing additional reimbursement to eligible PCP's. Detailed information outlining this Pilot Program was mailed to all PCP's in October.

For more information, contact VMC Provider Relations at 802-847-8161 or by email at going to VMC's website at askvmc@vtmednet.org
